

Entry Form

Direct Indirect (check one)

Large utility (> 50,000 connections)

Small utility (<50,000 connections)

Large Nonutility (\geq 100,000 gallons/year saved)

Small Nonutility (< 100,000 gallons/year saved)

For Reuse Projects only:

Please include this submission for consideration for the Bob Derrington Reclamation Award (does not exclude entry from any other award category).

Project name

Organization name (if applicable)

Address

City State ZIP

Phone: _____

Fax: _____

Email: _____

Words to be engraved on award

Please submit **three copies (if hard-copy)** of each entry to:
Jennifer Douglass Nations,
College Station Water Services Department
Mail: P.O. Box 9960 College Station, TX 77842
Physical: 1601 Graham Road College Station, TX 77845
E-mail: jnations@cstx.gov

Deadline: February 17, 2012

Sponsored by the Texas Section AWWA
Water Conservation & Reuse Division

Texas Water Conservation And Reuse Awards

For the 19th year, the Conservation & Reuse Division of the Texas Section, American Water Works Association, will recognize utilities, companies, government agencies, and private individuals who have discovered and implemented methods for better water-use efficiency. Awards will be presented at Texas Water 2012 April 10-13, 2012 at the Henry B. Gonzalez Convention Center in San Antonio.

Entries will be judged on innovation, implementation/execution, transferability, and benefits/results. Entries will be evaluated on activities that best support or promote efficient water use. Awards will be presented at the Awards Breakfast on April 12. Winners will be asked to submit pictures or visuals in March for presentation at the awards breakfast. There is a possibility of eight awards plus a special award for water reclamation and reuse projects, the Bob Derrington Reclamation Award for water reuse.

Direct programs show quantifiable reductions in water consumption. Indirect programs include education or demonstration projects for which results may not be measured in quantifiable terms.

The divisions are-

- Large utility direct (50,000 or more connections).
- Large utility indirect (50,000 or more connections).
- Small utility direct (fewer than 50,000 connections).
- Small utility indirect (fewer than 50,000 connections).
- Large Nonutility direct (more than 100,000 gallons/year).
- Small Nonutility direct (100,000 gallons/year or less).
- Bob Derrington Reclamation Awards (Does not exclude entry from any other award category).

Entries must be received by **February 17, 2012**. Entries must include this entry form, and a two-page summary. It is requested that supporting material be kept to a minimum. The summaries should include-

- Description of the project.
- Research: Criteria used to determine the need and potential benefits of the project.
- Planning: Objectives, strategies, techniques, and resources.
- Execution: Implementation, tools, materials, difficulties encountered and overcome, and effectiveness in employing resources.
- Evaluation: Results; for direct projects, quantity of water saved, savings in water purchase costs and wastewater fees; conformance to budget; and extent to which objectives were met. For indirect projects, detail on how goals of the program were met, outcomes, and results.

Submit four copies of each entry to the address listed at left for the judging committee.

For more information, or to request an entry form, contact **Jennifer Douglass Nations, 979-764-6223, FAX 979-764-3452, jnations@cstx.gov**. The form is also available at the Texas Water 2012 website, <http://www.texas-water.com>.
